**2010 Roadster**VIN: **5YJRE1A12A1001057**condition: **excellent**fuel: **electric**odometer: **50906**paint color: **black**title status: **clean**transmission: **automatic**type: **convertible**

This 2010 Tesla Roadster Model 2.5 is in great condition with only 50,906 miles on it! Not only is it helpful for your pocket with gas money but great for the environment. It has only been with one owner for the whole time! No problems at all! Super smooth ride with a kick that is very surprising for an electric car and really outperforms many sports cars like it. It comes with converter cable for Tesla power stations, J1772 converter for other charging networks, and a hardtop cover with a case! This car has never even left Northern California and has many
