## Environment

The following section list environment scores which vehicle is more economy and less polluting. By reducing vehicle emissions, you save money and help the environment.

Greenhouse Gas Score:		10/10
Air Pollution Score:		10/10

**Consumer Access Product Disclaimer**The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real - time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

Before making a decision to purchase a vehicle, consumers may wish to obtain an independent vehicle inspection, a NMVTIS Vehicle History Report, and consult other available vehicle information resources.

The information in NMVTIS INCLUDES:

Consumers are advised to visit [www.vehiclehistory.gov](http://www.vehiclehistory.gov) for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

The information used to compile this report is aggregated from various government agencies, non-profit organizations, and industry sources. Access to the National Motor Vehicle Title Information System (NMVTIS) is facilitated through Approved NMVTIS Consumer Access Provider VinAudit.com, Inc. The accuracy and reliability of the information supplied depends primarily on the reporting sources, and all entities involved in compiling this report accept no liability for any errors or omissions. Furthermore, all warranties, expressed or implied, including any implied warranties of merchantability or fitness for a particular purpose are hereby disclaimed.

**VINCheckPro Consumer Access Disclaimer**

VINCheckPro Pro compiles vehicle history reports from various third party data suppliers and other data sources, including, but not limited to, NMVTIS or its sources. The Consumer Access Product Disclaimer above applies solely to NMVTIS data and data sources. This data is provided to you by VINCheckPro on a "read-only" basis; VINCheckPro does not supply data from its own databases and data sources, and is not responsible for the contents of any part of the NMVTIS Vehicle History Report. VINCheckPro cannot guarantee the accuracy of the information contained in NMVTIS Vehicle History Reports.
