

## INSTRUCTIONS TO PUT TESLA ROADSTER TO SLEEP (INHIBIT “APS”)

THE CAR MUST HAVE THE MAIN BATTERY TURNED OFF (INHIBIT APS = PUT TO SLEEP) BEFORE SHIPPING OR THE BATTERY WILL GO FLAT AND WILL BE DESTROYED AFTER ABOUT FOUR WEEKS. THIS WOULD MAKE THE CAR WORTHLESS. IT MUST BE DONE AFTER THE CAR IS TIED DOWN ON THE SHIP AND THE CAR NEEDS TO BE WOKEN UP AGAIN BEFORE BEING DRIVEN OFF THE SHIP. THE CAR CANNOT BE MOVED WHEN ASLEEP (APS INHIBITED)

- 1) WHEN APS IS TURNED OFF THE OUTSIDE DOOR HANDLE WILL NOT WORK SO YOU WILL NOT BE ABLE TO GET INTO THE CAR TO WAKE IT UP AGAIN UNLESS A WINDOW IS LEFT OPEN OR THE EMERGENCY KEY HOLE ON THE LEFT SIDE OF THE CAR BELOW THE DOOR IS USED. THIS KEY HOLE CAN FAIL SO IT SHOULD BE TESTED BEFORE DISABLING APS AND IF IT DOES NOT WORK A WINDOW MUST BE LEFT OPEN.

### Emergency unlocking

If the handset fails to unlock the doors (for instance if there is an electrical failure), you can unlock the left-hand door using the key blade.

A mechanical lock is located on the underside of the left-hand door. Turn the key clockwise to unlock the door.

**Note:** If active, the alarm will sound when the door is opened. To cancel the alarm, press the Unlock button on the handset.

- 2) THE CAR MUST FIRST BE TURNED OFF AND KEY TAKEN OUT OF THE IGNITION.
- 3) TO GET INTO THE SERVICE MENU YOU HAVE TO TAP REPEATEDLY ON THE SMALL SCREEN IN AN EMPTY AREA

- 4) IT WILL ASK FOR A “PIN” NUMBER WHICH IS 1050.
- 5) FIND THE APS INHIBIT TAB, PROBABLY “CONTROLS” THEN “INHIBIT APS”. PRESS THIS, CONFIRM “YES”
- 6) THE CAR IS NOW ASLEEP
- 7) TO WAKE UP THE CAR IN SOUTHAMPTON, UK, TAP REPEATEDLY ON THE SMALL SCREEN, ENTER THE PIN (1050). FIND “UNINHIBIT APS” TAB, PROBABLY “CONTROLS” THEN “UNINHIBIT APS”, PRESS THIS TAB AND THE CAR SHOULD WAKE UP.
- 8) ANY PROBLEMS CALL KXXXX AXXXX (+44 7917 XXXXXX)
