seconds 0-60 mph

Standard Battery

\$35,000

Long Range Battery

\$44,000

Performance

\$78,000

Model 3 Performance includes:

- Top speed of 155 mph
- Quicker acceleration: 0-60 mph in 3.5s
- Choice of White or Black Premium Interior
- Carbon fiber spoiler - Installed after delivery
- 20" Sport Wheels

Rear Wheel Drive

All-Wheel Drive

Included

Electric dual redundant motors independently control torque to both front and rear wheels and provide added security. In the unlikely event that one motor stops working, you can always rely on the second. The result is instant responsiveness and precise traction control, in all weather conditions.

installed after delivery

Enhanced Autopilot

☒ \$5,000

Additional features, including:

- Auto lane changing
- Autosteer
- Automatic parking
- Summon

\$6,000 upgrade if added after delivery

This is a driver's assistance feature with the driver responsible for remaining in control of the car at all

times. Software has begun rolling out and features will continue to be introduced as validation is completed, subject to regulatory approval.

Full Self-Driving Capability

☒ \$3,000

In the future, Model 3 will be capable of conducting trips with no action required by the person in the driver’s seat.

Requires Enhanced Autopilot

\$4,000 upgrade if added after delivery

This functionality is dependent upon extensive software validation and regulatory approval. It is not possible to know exactly when it will be available, as this is highly dependent on local regulatory approval, which may vary widely by jurisdiction.

 \$86,000 Before savings

Delivery in 12-16 weeks
