#### May 2023 Announcement

Diagnostic Software Toolbox 2 utilized on 2012-2020 Model S and 2015-2020 Model X will be disbanded on July 15th, 2023. It is recommended to discontinue use of Toolbox 2 and convert to using Toolbox 3 (available at <https://toolbox.tesla.com>) to prepare your business operations ahead of time for this transition.

All diagnostic and repair capabilities for 2012-2020 Model S and 2015-2020 Model X are already available in Toolbox 3. All references to Toolbox 2 in the Service Manual have been updated with instructions on how to utilize Toolbox 3 to execute a repair.
