Description

VIN 2500

We offer the unique opportunity to buy the very last Tesla Roadster ever built, VIN 2500. It is not only the very last Roadster which came out of the factory, it was also prepared and conditioned in a very special way. This car comes in an unique sparkling white, a special white & black interior trim, full Carbon package inside, unique Carbon diffusor, the VIN 2500 badging, white ornaments on the rims and Signatures of the Tesla Team from back in the days on the battery. VIN 2500 was never registered, stored on tire pillows on marble floor and has only ca. 200km original mileage from the factory. The original coverage on the steering wheel, hand brakes, etc. is still on. Of course the battery was kept on ideal level and the overall car serviced. Imagine you missed like everybody the chance for a Ferrari 250 GTO before the prices really took off, now you have it with this very special collectors car from the most valuable car manufacturer in the world.
