

# Trim - B-Pillar - Upper - LH (Remove and Install)

Correction Code 15184201

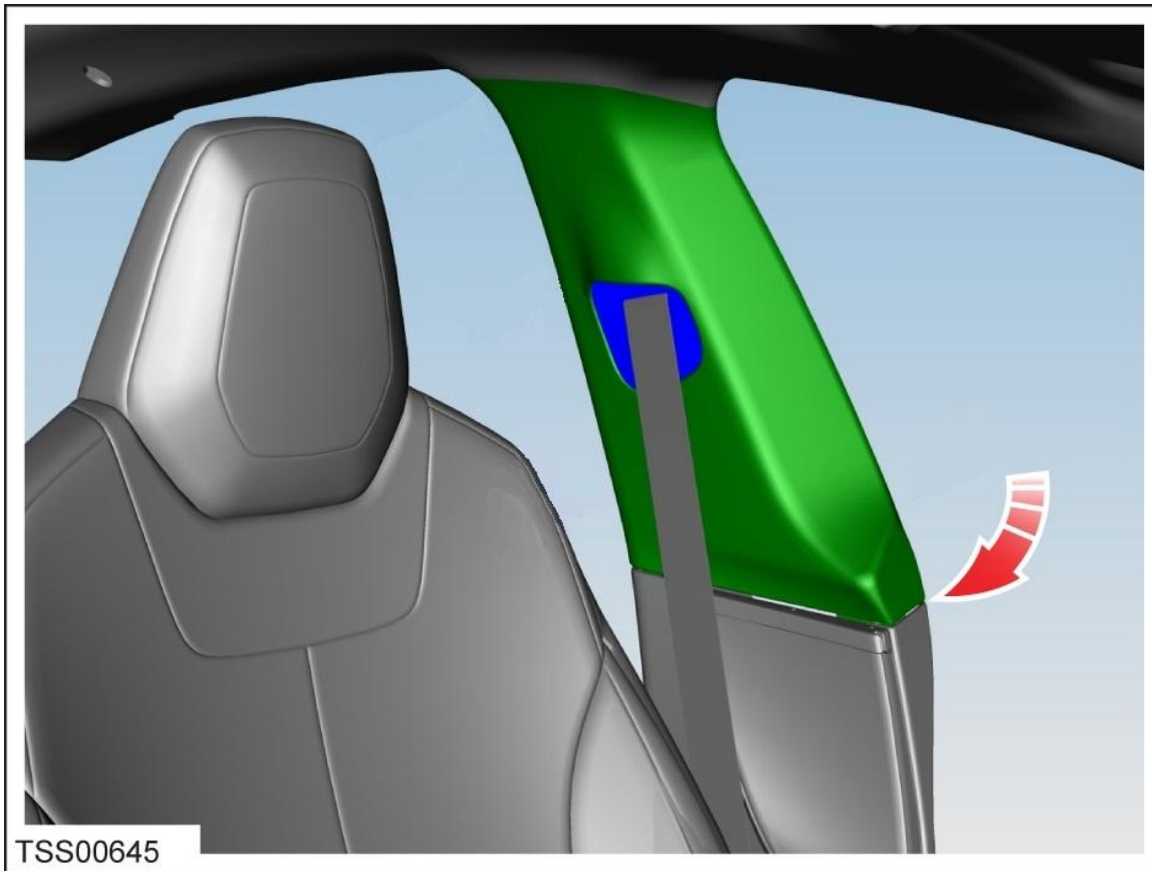

## Removal

1. Remove the LH lower B-pillar trim (refer to procedure).
2. Carefully release the clips that secure the B-pillar upper trim to the body. Gently pull the lower edge away from the body and release the locator posts from the headliner.

### CAUTION

Take care not to damage component(s).

3. Allow the B-pillar upper trim to rest on the seatbelt buckle.

## Installation

Installation procedure is the reverse of removal, except for the following:

### CAUTION

Replace all patchbolt(s).

Inspect the B-pillar upper trim for damage to the alignment posts at the top that might prevent the correct reinstall of the upper trim.

### Note

Excessively damaged upper trim can unexpectedly release while the vehicle is being operated.

If the alignment posts are excessively damaged, discontinue this procedure and replace the B-pillar upper trim ([refer to procedure](#)).
